## 3-STEP SURFACE CARE GUIDE

Looking after your caravan, RV or watercraft the Meguiar's way.

Thanks to the Meguiar's easy, 3-Step Surface Care System, maintaining an as-new appearance for your caravan, RV or watercraft, doesn't have to be complicated.

### STEP 1 – WASH & MAINTAIN

Washing is important to remove surface contaminants, which if left can etch or bond to the gelcoat surface. It also helps protect against UV attack, while maximising the life and shine of your wax.

- Use a proper Meguiar's wash as it will whisk away the unwanted surface contamination without scratching or harming your gelcoat finish.
- Do not use detergent, or other harsh chemical cleaners (especially caustic or acidic cleaners) as they will strip your vital wax protection and potentially attack the gelcoat.
- Avoid dirty, gritty or abrasive brushes, as they will abrade and dull your gelcoat finish.
- Remove bug spatter, bird droppings, salt spray, exhaust soot and industrial fallout as quickly as possible to avoid staining.

### STEP 2 – SURFACE PREP

Meguiar's surface prep products are designed to rejuvenate weathered gelcoat, remove minor surface defects and bonded contamination, plus sharpen colour and clarity – all while bringing up the gloss!

- Washing alone will not remove tough surface contamination, such as water stains, stubborn salt spray, and other bonded contaminants. Remove with Meguiar's Cleaner Wax, or High-Gloss Polish.
- Meguiar's Oxidation Remover, Color Restorer and Cleaner Wax will remove light surface defects such as fine scratches, swirls, stains and other blemishes while enhancing gloss.
- If the gelcoat surface features light to medium oxidation, rejuvenate with Meguiar's Color Restorer, or for heavy oxidation use Meguiar's Oxidation Remover.

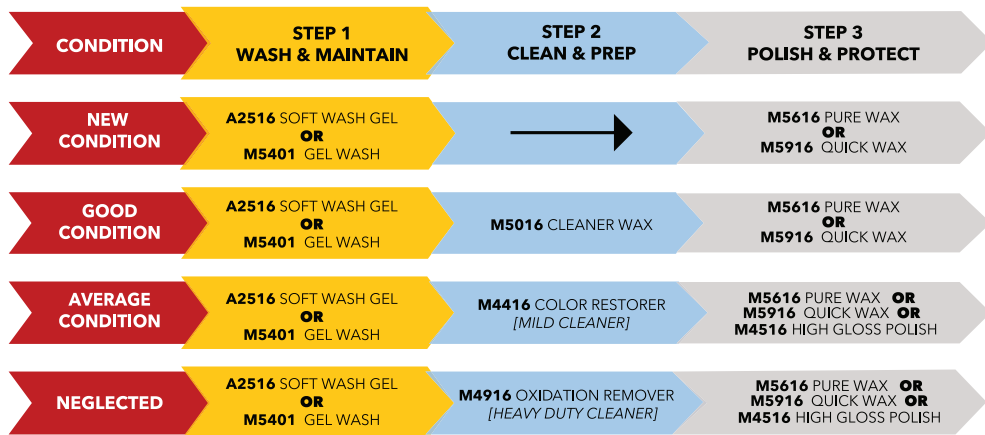

### STEP 3 – POLISH & PROTECT

With the gelcoat surface smooth, shiny and defect free, further enhance its gloss by polishing and waxing. Wax seals the surface and adds vital protection against environmental and UV attack.

- Clean and prepare the surface before applying wax. The better the surface is before waxing, the longer it will last.
- Wax at least twice a year – more often if stored outdoors and for dark colours.
- For regularly used caravans, RVs and watercraft, wax up to four times a year.
- Quik Wax spray can be applied to still wet, just-washed surfaces before drying. This provides a periodical wax top up – which enhances protection and gloss with virtually no extra effort!

## SURFACE CARE QUICK GUIDE

### GELCOAT CARE

While the high-gloss exterior finish on your fibreglass caravan, RV or watercraft may look to be painted, its far more likely a gelcoat finish. High-quality gelcoat finishes are extremely durable and easy to maintain, however they do require specific care and maintenance to preserve their 'as-new' looks year-after-year.

Prolonged exposure to UV, heat and moisture all combine to oxidise gelcoat surfaces, making them prone to dulling and fading. With their specially-engineered gelcoat chemistry, the Meguiar's Marine & RV range not only delivers the ultimate clean, maximum lustre and rejuvenation, they also provide your gelcoat finish with lasting protection against the harsh elements, keeping it looking better for longer.

See 'Top Tips' (Page 7) for recommended maintenance advice.

## The Surface Care Experts

Meguiar's has been polishing and protecting the world's planes, trains and automobiles since 1901 – we are the Surface Care Experts. The Meguiar's advanced Marine & RV range continues this proud tradition with an exceptional range of specifically engineered washes, cleaners, waxes and deoxidisers that will make your caravan, RV or watercraft really pop. While also providing vital protection against the harsh Australian elements to keep it looking better, for longer.

### **SOFT WASH GEL | 473ml | A2516**

Super rich, super thick and super concentrated, this remarkable formula blends rich conditioners with optical brighteners to enhance the brilliance and gloss of your gelcoat finish. Detergent-free and pH balanced, it won't strip off your vital wax protection.

### **GOLD CLASS SHAMPOO CONDITIONER | 473ml | G7116**

A luxurious and advanced formula that cleans and conditions in one easy step. It gently foams away tough dirt, grime, salt spray and other stubborn surface contaminants without scratching and without stripping vital wax protection. Ultra-rich conditioners reveal vibrant colour and clarity. We recommend this product if you're using our Megafoam Snow Cannon.

### **GEL WASH RICH SUDS | 3.79L | M5401**

Rich, emulsifying wash with high sudsing action that safely removes scum, dirt, salt spray, grime and bird droppings without excessive rubbing – and without stripping your vital wax protection. Rich conditioners and optical brighteners enhance brilliance, while pH balanced, biodegradable detergents make it perfect for gelcoat finishes.

### **OXIDATION REMOVER | 473ml | M4916**

Safely removes moderate oxidation, water spots, stains, scratches and other surface degradation from older gelcoat. Enriched feeder oils restore original colour and enhance shine. Unique diminishing abrasives deliver quick initial cut, followed by a brilliant finish. Apply by hand, or with a Dual-Action polisher for faster, more effective results.

**Visit your local caravan, RV or watercraft dealer**

**COLOR RESTORER | 473ml | M4416**

Formulated to remove fine defects, stains, blemishes and light oxidation from fibreglass gelcoat and painted surfaces. Unique diminishing abrasives and mild cleaning agents work to gently revive and restore colour, rejuvenate original lustre and enhance gloss. Apply by hand, or with a Dual-Action polisher for faster, more effective results.

**HIGH GLOSS POLISH | 473ml | M4516**

Restores colour and gloss while adding rich polishing oils to feed and nourish gelcoat surfaces. Formulated to deliver optimal results after cleaning and before waxing. It's recommended to use a polish before waxing, particularly on dark colours. Apply by hand, or with a Dual-Action polisher for faster results.

**CLEANER WAX | 473ml | M5016**

Non-abrasive formula safely and effectively removes light oxidation, haze, minor scratches and swirls. It also cleans, polishes and protects all fibreglass gelcoat surfaces in one easy step. Provides durable long-lasting protection against salt air, corrosion and the sun's UV rays.

**PURE WAX | 473ml | M5616**

Blends pure Brazilian Carnauba wax with polymers and resins that produce an enhanced, high gloss finish while providing durable, long-lasting protection. Safe, effective and easy to use on all gelcoat and painted surfaces. Especially effective on dark colours and clear-coated metal flake finishes. Apply by hand or with a Dual-Action polisher.

**QUIK WAX | 473ml | M5916**

Spray on, wipe off formula that adds deep gloss and Carnauba Wax protection. Gentle cleaning action removes water spots and light contaminants. Can be applied to wet or dry surfaces in new, or 'like-new' condition. Safe and effective on gelcoats, painted surfaces, painted aluminium, stainless, clear plastic and other non-porous surfaces.

**for all your Meguiar's surface care products.**

## ACCESSORIES

Meguiar's high-quality applicators, towels, cloths and wash accessories are the best way to get peak performance out of all your Meguiar's products.

### **SUPER SUDS WASH MATE** **230mm x 190mm | AG1025**

- Deep, thorough, scratch-free cleaning
- Mega size, super suds
- Heavy-duty for large dirty caravans, boats & vehicles

### **MEGAFOAM SNOW CANNON KIT** **MEGACANN**

- Extreme foaming action
- Anti-topple design, suits 1400-3200psi pressure washers
- Big or small, it makes cleaning easy

### **MEGA SUPREME SHINE DRYING TOWEL** **| 900mm x 600mm | AX1500**

- Mega-thick for insane absorbency
- Mega-size for drying caravans, boats & large vehicles
- Streak-free, scratch-free drying, washable

### **MULTIPURPOSE POLISHING CLOTH** **| 400mm x 400mm | AG3030**

- Non-scratch microfibre
- Reduced wipe-off time & lint free
- Washable, single (AG3030) or triple pack (AG3030T)

### **SUPREME SHINE NO SMEAR GLASS CLOTH** **| 400mm x 400mm | AG3032**

- Totally non-scratching microfibre
- 100% lint free, streak free results
- Washable, single (AG3032) or twin pack (AG3032T)

### **MICROFIBRE APPLICATOR PADS** **Twin Pack 125mm | X3080EU**

- Best used with Oxidation Remover, Color Restorer & Cleaner Wax

### **HAND APPLICATOR PAD | Twin Pack** **100mm | APPAD**

- Ideal for applying all Meguiar's cleaners, polishes & waxes

## INTERIOR

Caring for the inside of your caravan, RV or watercraft is just as important as the exterior. After all there's nothing more luxurious and satisfying than an interior that looks, feels and smells like new. Maintaining the interior not only makes it a nicer place to be, it also preserves resale value.

### **PERFECT CLARITY GLASS CLEANER** **710ml | G8224**

- Crystal clear, streak free results with zero residue
- Unique formulation creates an easy slide effect
- Anti-hazing formula provides long-lasting clarity

### **GOLD CLASS RICH LEATHER 3-IN-1** **450ml | G10916**

- Cleans, conditions and protects, in one easy step
- Non-greasy, UV protection
- UV protection helps prevent aging and fading

### **CARPET & CLOTH REFRESHER** **709ml | G180724**

- Permanently eliminates odours
- Refreshes cloth, fabric and carpet
- Leaves pleasant scent

### **HEAVY DUTY MULTI-PURPOSE CLEANER** **| 710ml | G180224**

- Removes dirt, grease & grime
- Suits virtually all surfaces
- Powerful cleaning without staining or bleaching

## TOP TIPS

- **BUCKET AND SUDS WASHING:** After rinsing the whole caravan/watercraft, dip the Meguiar's Super Suds Wash Mate into your suds bucket and agitate the surface. For dark coloured craft and/or especially dirty vehicles, rinse the Wash Mate in a second bucket filled with plain water before dipping it back into your suds bucket. This will minimize any marring of the surface.
- **SNOWFOAM WASHING – LIGHTLY DIRTY:** Rinse, then foam the whole caravan/watercraft using a Meguiar's Megafoam Snow Cannon and Meguiar's wash. Allow to dwell for 3-4 minutes then rinse off.
- **SNOWFOAM WASHING – MODERATE TO HEAVILY DIRTY:** Rinse, foam up, then agitate the surface with Meguiar's Super Suds Wash Mate. Work on an area at a time, rinsing the Wash Mate in a bucket of plain water before moving onto the next section.
- **BEFORE DRYING:** Periodically apply Meguiar's Quik Wax onto the clean, wet surface before drying for enhanced protection with virtually no extra effort.
- **DRYING:** The Meguiar's Mega Drying Towel soaks up water like nothing else and will get even a large caravan dry in way less time than you think. Drying stops unwanted streaks and water spots from forming – which are particularly noticeable on dark surfaces.
- **CHEMICALS:** When using any new chemical on your gelcoat surface, especially aggressive tar and bug removers, always test in a small inconspicuous area to ensure it does not adversely affect the finish.
- **SPOT CLEANING:** Meguiar's spray detailers are ideal for spot cleaning, as well as maintenance cleaning in between regular washing.
- **ONGOING MAINTENANCE:** Failure to perform simple washing, waxing and general surface maintenance may result in premature surface degradation over time. Looking after your investment will keep it looking better, for longer.
- **TOWELS AND CLOTHS:** High-quality gelcoat finishes are extremely durable however they are easily scratched. Premium quality Meguiar's microfibre cloths and towels will not harm even the most delicate of surfaces. They are also the best way to ensure you get peak performance out of all your Meguiar's products.
- **STORAGE:** Indoor storage is the best to preserve the as-new appearance of your caravan, RV or watercraft. If outdoors, keep out of direct sunlight and away from trees and bird droppings.
- **PROTECTIVE COVERS:** Avoid types that trap moisture, as that can lead to blushing, especially with darker colours. To avoid scratching the gelcoat finish, wash and dry your caravan, RV or watercraft prior to fitting the cover.
- **SURFACE DAMAGE:** The gelcoat finishes on caravans and RVs subjected to long trips in dusty, dirty terrain are bound to suffer from scratching, along with other visible signs of wear 'n' tear. The sooner you address such damage the better. Depending on the severity, Meguiar's Oxidation Remover, Color Restorer, or Cleaner Wax will eliminate fine scratches, swirls, stains and other marks. Always follow with a protective wax.
- **SERIOUS DAMAGE:** Significant repairs should be referred to your local professional.
